Fur Socks

Windscreens for broadcast and production microphones

BPF Fur Socks are used for Audio-Technica **BP** series microphones which are used most often when the supplied foam windshield is not adequate in windy conditions.

Fur Socks are easily pulled over the existing foam and are fastened with velcro. The fur covering is a 30mm synthetic fur, especially chosen for its acoustic properties and lighter weight.

为用于广播及制作的话筒而设的毛皮挡风套

BPF系列挡风套是专为鐵三角**BP**系列的话筒而配置，能直接使用在现有话筒的防风绵上，以补充在强风环境下收音的抗噪能力。

毛皮挡风套能轻易穿戴在现有的话筒防风绵上，并以Velcro粘扣带快速固定。挡风套特别具有声学特性，并以轻量的30mm人造纤维毛皮制作。
